Please note the change to Board Policy 5302 as it affects students parking on school property.

Search and Seizure

BP5302

A vehicle driven by a student to or from school is considered a possession of the student while the student is in school, and it is subject to search in accordance with the policy regardless of where the vehicle is parked. Given the frequent use of student vehicles as a place of storage by students, as a condition of accepting and utilizing a permit to park on school property, each student consents to a vehicle search in the same manner as a locker search and acknowledges the absence of any expectation of personal privacy of the vehicle and its contents. A student utilizing an on-site parking permit may be required to unlock or otherwise provide access to the vehicle's interior for search by school officials notwithstanding the absence of reasonable suspicion. Students and their parents/guardians shall be informed of this policy in writing when lockers and/or parking permits are assigned or issued.

Board Approved: June 19, 2006

I hereby acknowledge that I have received and read the above Board Policy.
